GRENEDA PROJECT

Following diagram describes the process of
data retrieval from the database by the initiated
by the user interface unit

Greneda Main Pi

Database

Database.c

Output.dat

SSH

Start Database
code with 2 date
parameters

FTP

Pass output file with
date specific sensor
data

User Interface Pi

Script.sh

Node-RED

Output.dat

Input

Dates for
display

Output

Graphs/Charts

Touch Screen Display
